 BETTER FOR YOU

THE RIGHT SOLUTION FOR YOU

We are an independent specialist global wholesale insurance broker with offices in Bermuda, Chile, Dubai, London and South Africa. We have had just over 10 successive years of growth, placing non-standard risks for large multi-national companies. Our team of experts work closely with clients ensuring they are aligned with the best markets, people and products available to achieve the right solution.

Independent
 Our independence means we have no local conflicts, nor are we constrained by market agreements. This leaves us free to work with markets best placed to meet you and your clients' needs.

We have over 380 employees working in all aspects of broking, technical, claims and support.

Connected
 You benefit from our centralised in-house service, a team driven by a desire to collaborate in your best interests. Together, we will connect you with the best products and markets to achieve the right solution for you.

Committed
 Taking a long-term view means that we are dedicated to developing a mutually beneficial relationship with our clients and markets. By working together we believe we can tackle the most sophisticated risks with a tenacity to deliver on time, every time.

As a truly **independent** company we are **committed** to bringing you unparalleled expertise **connecting** you with the best people, markets and solutions available.

THE RIGHT SOLUTION FOR YOU

We provide you with an individually tailored solution based on continuous analysis including discussion to develop and maintain a thorough understanding of your exposures, risk retention and transfer strategy.

Understanding

We will assess your situation, gather all of the data required and then analyse the information before agreeing a joint approach that matches your risk appetite. It is essential for you to be part of the process, to be informed and empowered.

Communication

Open engagement between all parties, you, us and underwriters, creates a long-term mutually beneficial relationship. By working closely with you we can align your needs to the best markets, to find a solution that is right for you. Our strategy combines a nimble, entrepreneurial and collaborative philosophy underpinned by expertise in all aspects of the London and International markets.

Breadth and depth

We handle an international portfolio of reinsurance business, placed with underwriters in all the major reinsurance markets. Our clients come from a wide range of maritime nations and industries, and our team has the breadth and depth of expertise necessary to respond to their needs.

EXPERT SERVICE DELIVERY

Each and every client is placed at the centre of the Price Forbes business. Value is added to the process of purchasing insurance through the consistent delivery of a high level of service.

Expertise and experience

Attracting and developing the best talent to offer you the right expertise.

Delivering solutions

Aligning the market to offer tailored solutions to address your needs.

Outstanding service

Our growth is underpinned by the excellence of our coordinated in-house claims and service delivery.

IN-HOUSE CLAIMS

The acid test of a reinsurance broker's service is the quality of its claims handling. This is why claims negotiation and settlement is neither outsourced nor off-shored; it is handled by us, in one central location.

Our claims team is thorough, tenacious and creative, composed of a group of highly qualified specialists who understand the industry. They are integral to the service we provide to you, from simple administration all the way through to claims advocacy.

We firmly believe that we can offer you a unique service. As well as providing protection and sound risk management, well-structured reinsurance programmes are often deal enablers opening up operational and financing options.

EXPERT REINSURANCE & PRODUCTS CAPABILITIES

The Price Forbes Reinsurance and Products Team have over 200 years of combined broking experience working on various reinsurance programmes and facultative solutions in the Lloyd's and International reinsurance markets. The team thrive in providing innovative ideas and structural designs to compliment many different requirements for our clients and always push the boundaries in finding the best available coverage, structure and pricing.

REINSURANCE / PRODUCTS CAPABILITIES

The breadth of knowledge and experience within our team has enabled us to design, create and deliver many different product solutions, a sample of which are listed below:-

- P&I Reinsurances
- Retention Protections / Pool Protections
- Aggregate Solutions
- Stop Loss programmes / Adverse Development covers
- Actuarial & Analytics Studies
- Programme and Structure Design
- Facultative and programme solutions for – Non-Poolable / Fixed premium P&I / Specialist Operations / Shipowners Liability to Cargo / Contractual Extensions / Energy Risks / FD&D / Charterers / Overspill
- Specialty Product Solutions – COFR's, Decommissioning, Nuclear & Radioactive matter, Maritime Labour Convention / Seafarers Abandonment / Aquaculture / Hull XOL
- Binding Authorities / Managing General Agencies
- Large Capacity Solutions Retailers

In addition the team differentiates itself from other reinsurance brokers by having extensive experience working with ship-owners and marine clients on a direct basis delivering a multitude of marine liability solutions to compliment and sit alongside their P&I entries. Such solutions include General Liability, Employers Liability, Hull, Auto Liability, Professional Indemnity, Terminal Operators Legal Liability, Ship Repairers Legal Liability, Ship Builders, Construction All Risks, Decommissioning Liabilities, Trade Disruption insurance, Umbrella programmes. This unique experience gives the team the added advantage of knowing where to find those bespoke solutions for the risks that don't fit in a box and our team aren't strangers to the "direct" London and International markets who can also provide these solutions for our reinsurance clients.

ACTUARIAL & ANALYTICS CAPABILITIES

To compliment our clients' needs we also have our own in-house dedicated Actuarial and Analytics team, the team are integrated within the department focusing specifically on the Marine and P&I industry.

Our actuarial & analytics capabilities combine traditional actuarial methods with the latest data science techniques to provide insight for our clients. We have expertise in a wide range of methods (actuarial projections, market pricing methods, Monte Carlo simulations, data visualisation, and the latest machine learning techniques), and make use of these tools to help optimise our clients' capital requirements, coverage, and price.

We take pride in communicating our findings in a clear and understandable way.
