COMMITTED

BETTER FOR YOU

We are an independent specialist global wholesale insurance broker with offices in Bermuda, Brussels, Chile, Dubai, London, Malaysia and South Africa. We have had over 11 successive years of growth, placing risks for large national corporations, SMEs and start-ups, and in particular, non-standard risks for large multinational companies. Our team of experts works closely with clients ensuring they are aligned with the best markets, people and products available to achieve the right solution.

We have over 400 employees working in all aspects of broking, technical, claims and support.

As a truly **independent** company we are **committed** to bringing you unparalleled expertise **connecting** you with the best people, markets and solutions available.

Independent

Our independence means we are not constrained by market agreements. This leaves us free to work with markets best placed to meet your and your clients' needs.

Connected

You benefit from our centralised in-house service, a team driven by a desire to collaborate in your best interests. Together, we will connect you with the best products and markets to achieve the right solution for you.

Committed

Taking a long-term view means we are dedicated to developing a mutually beneficial relationship with our clients and markets. By working together we believe we can tackle the most sophisticated risks with a tenacity to deliver on time, every time.

THE RIGHT SOLUTION FOR YOU

Finding the right answer means asking the right questions. We believe that to really get to the bottom of your business needs, we have to listen to you and understand what drives you. Only then can we begin the journey to the right recommendations.

Consistency

Obtaining secure, consistent coverage quickly and efficiently can be a challenge. Organisations with varied and unusual exposures face unforeseen obstructions. We offer a discreet and bespoke solution for our reinsurance clients.

Dedicated team

You will have your own dedicated team of professionals, coordinated by one client team leader, who will work across different disciplines and territories to deliver informed counsel and the most effective reinsurance solutions. Each team incorporates analytical assessment, a wealth of market knowledge, as well as excellence in both technical support and claims servicing.

Working with you

Client liaison takes a consultative but pragmatic approach to advice and delivers solutions that respond to your needs, allowing the creation and placement of high value, composite structures with total transparency. The team is not unduly reliant on one or two reinsurers, nor does it approach each and every market.

EXPERT SERVICE DELIVERY

Each and every client is placed at the centre of the Price Forbes business. Value is added to the process of purchasing insurance through the consistent delivery of a high level of service.

- **Expertise and experience**

Attracting and developing the best talent to offer you the right expertise.

- **Delivering solutions**

Aligning the market to offer tailored solutions to address your needs.

- **Outstanding service**

Our growth is underpinned by the excellence of our coordinated in-house claims and service delivery.

IN-HOUSE CLAIMS

The acid test of a (re)insurance broker's service is the quality of its claims handling. This is why claims negotiation and settlement is neither outsourced nor off-shored; it is handled by us, in one central location.

Our Claims team is thorough, tenacious and creative, composed of a group of highly qualified specialists who understand the industry. They are integral to the service we provide to you, from simple administration all the way through to claims advocacy.

In a market that is dominated by large broking organisations, we offer a specialty alternative to the industry's big players.

EXPERT SECURITY RISK CAPABILITIES

What we do?

Our Security Risks team has the expertise and product range to provide bespoke solutions to a range of Security Risks including but not limited to, reputational risks, personnel risks, extortive and criminal risks, political risks, and terrorism risks. Focussing on the corporate suite and the challenges faced by both growing and large corporates, the Security Risks team has the specialist consultancy and risk analysis capabilities to ensure that risks are managed and mitigated before they arise as well as dealing with a crisis as it evolves, helping our clients to PREVENT, PROTECT and RECOVER.

Why us?

We offer a global capability through the Price Forbes network and have specialists in the Asian and US markets. We are a client-focussed team looking to place business where it is best placed for our clients, not the insurers. We have a global outlook based on local delivery, ensuring our clients are serviced by advisors who will become part of their business planning structure over time. We deliver a holistic capability through the complementary nature of the product as support to, and mitigation against claims on wider insurance products. This "break glass" preventative approach to emerging issues protects our clients against triggering other policies thereby reducing the risk on their insurance portfolio across the range of insurable events. We have a track record of successfully supporting global corporate clients with their reputational, cyber and security issues.

How can we help?

We offer indemnity solutions to provide businesses with pre-emptive policy triggers, enabling our clients to react to events "left of the bang", and claims support to deal with the suspicion of, allegation of, imminent threat of, or tangible occurrence of the following perils:

- Malicious & extortive crime
- Reputation risks
- Emerging risks
- Political risks impacting people and assets
- Criminal, politically and religiously motivated risks
- Supply chain and product contamination
- Emergency security and disaster evacuation (non medical)
- Information & cyber risks
- High risk and complex personal accident & workers compensation risks
