WITH A GENUINELY BESPOKE APPROACH
TO DELIVER THE HIGHEST POSSIBLE
STANDARD OF SERVICE

BETTER FOR YOU

We are an independent specialist global wholesale insurance broker with offices in Bermuda, Brussels, Chile, Dubai, London, Malaysia and South Africa. We have had over 11 successive years of growth, placing risks for large national corporations, SMEs and start-ups, and in particular, non-standard risks for large multinational companies. Our team of experts works closely with clients ensuring they are aligned with the best markets, people and products available to achieve the right solution.

We have over 400 employees working in all aspects of broking, technical, claims and support.

As a truly **independent** company we are **committed** to bringing you unparalleled expertise **connecting** you with the best people, markets and solutions available.

Independent

Our independence means we are not constrained by market agreements. This leaves us free to work with markets best placed to meet your and your clients' needs.

Connected

You benefit from our centralised in-house service, a team driven by a desire to collaborate in your best interests. Together, we will connect you with the best products and markets to achieve the right solution for you.

Committed

Taking a long-term view means we are dedicated to developing a mutually beneficial relationship with our clients and markets. By working together we believe we can tackle the most sophisticated risks with a tenacity to deliver on time, every time.

THE RIGHT SOLUTION FOR YOU

Finding the right answer means asking the right questions. We believe that to really get to the bottom of your business needs, we have to listen to you and understand what drives you. Only then can we begin the journey to the right recommendations.

Consistency

Obtaining secure, consistent coverage quickly and efficiently can be a challenge. Organisations with varied and unusual exposures face unforeseen obstructions. We offer a discreet and bespoke solution for our reinsurance clients.

Dedicated team

You will have your own dedicated team of professionals, coordinated by one client team leader, who will work across different disciplines and territories to deliver informed counsel and the most effective reinsurance solutions. Each team incorporates analytical assessment, a wealth of market knowledge, as well as excellence in both technical support and claims servicing.

Working with you

Client liaison takes a consultative but pragmatic approach to advice and delivers solutions that respond to your needs, allowing the creation and placement of high value, composite structures with total transparency. The team is not unduly reliant on one or two reinsurers, nor does it approach each and every market.

EXPERT SERVICE DELIVERY

Each and every client is placed at the centre of the Price Forbes business. Value is added to the process of purchasing insurance through the consistent delivery of a high level of service.

- **Expertise and experience**

Attracting and developing the best talent to offer you the right expertise.

- **Delivering solutions**

Aligning the market to offer tailored solutions to address your needs.

- **Outstanding service**

Our growth is underpinned by the excellence of our coordinated in-house claims and service delivery.

IN-HOUSE CLAIMS

The acid test of a (re)insurance broker's service is the quality of its claims handling. This is why claims negotiation and settlement is neither outsourced nor off-shored; it is handled by us.

Our claims team is thorough, tenacious and creative, composed of a group of highly qualified specialists who understand the industry. They are integral to the service we provide to you, from simple administration all the way through to claims advocacy.

In a market that is dominated by large broking organisations, we offer a counterbalance to the industry's big players.

EXPERT TREATY REINSURANCE CAPABILITIES

Our Treaty team provides superior service to a global client base, with a core belief that real value is delivered to clients by placing their requirements at the centre of our business. We recognise that every client is different and requires a unique approach.

Price Forbes' treaty clients are served by a dedicated team of experienced professionals, who work together across different disciplines and territories to deliver the most effective reinsurance solutions.

We have extensive relationships with global markets, enabling us to access capacity most closely aligned to our clients' requirements.

All types of reinsurance are catered for, whether on a traditional or structured basis.

Clients seeking an open, creative relationship with their reinsurance broker will find like-minded professionals to work with them to manage their exposures and achieve their reinsurance and capital management objectives.

Our team also provides Modelling Analytics, from single territory to global portfolios across all classes of business.

We licence over 125 catastrophe models and provide considered evaluation and explanation of the complex area of natural hazard assessment.

The team provides advice on relevant data and assessment of information quality. In providing our conclusions we seek to improve our clients' understanding of their portfolios and the techniques used in arriving at our evaluation enable us to propose effective reinsurance solutions.

HOW WE HELP MAKE A DIFFERENCE

“ *The company always scored high in our assessments of brokers. Of particular note is their understanding of our needs and their effective communication with the third parties and their proactive approach. On the analytics side they were very responsive, prompt and exact. Overall we believe we are right in our choice of this company as one of our long-standing reinsurance brokers.* ”
