INSURANCE COVERAGE

The global energy business is made up of many diverse industries – we expect and are prepared for your specific insurance and risk management needs.

Upstream and mid-stream operations including construction

A full spectrum of services, from exploration, through to development and construction, to production, distribution and storage.

Package policies or monoline placements can be arranged.

Downstream operations

Comprehensive insurance programmes for a wide range of hydrocarbon processing, refining, storage and petrochemical activities.

We cover risks from

- Exploration
- Development and construction
- Production
- Distribution and storage
- Processing and refining
- Petrochemical activities
- Onshore and offshore including drilling rigs, floating units and other valuable property associated with the onshore and offshore energy industry
- Risks associated with decommissioning assets at the end of their useful life

We work on behalf of Owners, Principals, Contractors, Governments, Licensors and Agents.
