INSURANCE COVERAGE

Utilising our knowledge and capabilities we believe we can offer our healthcare clients a unique service. Our products are split into two main sectors: medical malpractice and clinical trials.

We can offer a wide range of tailored insurance and reinsurance programmes for the healthcare industry:

- Primary or “excess of loss” layers
- Direct or facultative reinsurance
- Cover for international medical providers
- Regulatory/clinical trial wording, high limits of indemnity and low deductibles

Medical malpractice

- Public hospitals
- Private hospitals
- Hospital groups (chain of hospitals)
- Diagnostic and treatment clinics
- Dental practices
- Cosmetic surgery clinics
- Individual doctors/physicians schemes
- Medical associations
- Long term care/nursing homes
- Allied health/miscellaneous medical professional
- Any other medical related service provider

Clinical trials

Clinical trials are a critical phase in the validation of the effectiveness and safety of drugs or medical devices. Because the regulatory environment governing clinical trials varies from country to country, it is very important that the right insurance is selected. We can provide global clinical trials solutions utilising our own in-house binding authorities and suite of local wordings. We have vast experience in this sector and you can be assured we will provide the right advice for clients.
