Our current book covers a wide variety of industries, from life sciences to manufacturing and ranges from single layer placements for private enterprises to large, multi-layer, multi-territory placements for multi-listed corporations with active claims on them. We negotiate and place risks in territories ranging from the American continents, through Europe and the Middle East, and into the Far East and Australia. Our team works closely with the Financial Institutions, Professional Liability and Cyber Liability teams in order to provide a full range of financial lines insurance solutions for clients.

We are experts on the following product lines:

- Directors & Officers Liability

- Employment Practice Liability
- Fiduciary Liability (Pension Trust Liability)

Our attitude is that a risk is not simply about renewal, especially in today's market. It is about constant thought, updates and strategy. We believe in productive relationships between carrier, intermediary and insured in order to drive the best outcomes for the insurance buyer.
